## STRATTON NEXT GOVERNOR, SAYS CAPITOL RUMOR

Secretary Prominent  
Among Those Mentioned  
to Succeed  
Emmerson

Prominent among the eligible candidates for governor in 1932 to succeed Louis L. Emmerson, should he no longer desire the state's chief executive post, the name of Secretary of State William J. Stratton is mentioned this week in a communication from Springfield. Discussing "future" in Illinois politics, the Capitol News Camera sent out the following letter:

Springfield, Illinois, August 1.—When bigger and better political rumors are produced, Illinois will produce them.

And although coming elections are still comparatively far in the offing, the state house is abuzz with gossip despite the inactivity of the summer doldrums.

Of primary interest at present in the state circles is the coming senatorial fight. U. S. Senator Charles S. Deneen is squared away for a battle to retain his toga. Mrs. Ruth Hanna McCormick is an avowed aspirant for his honors and, although she has made it known already that she will seek the senate seat, her formal announcement is expected to come at Republican day at the State fair in August. Deneen petitions already have been circulated in some counties.

Emmerson's Attitude Unknown  
The stand to be taken by Governor Louis L. Emmerson in the battle is the much mooted question in the contest. Mrs. McCormick's friends believe he will back her candidacy, while Deneen's supporters expect at least neutrality on his part. The governor has as yet given no indication as to his stand.

Attorney General Oscar E. Carlsom also has been mentioned as a third candidate for the post but he has neither denied or affirmed the report. Some also are wondering what, if any, action will be taken by former Governor Len Small, who has given no indication as to whether or not he "through" with politics.

Although further distant, the gubernatorial race also is being discussed. Governor Emmerson, it is conceded by many, would have little trouble in securing his re-election if he should decide to stand aside a large field of hopefuls would hope for a chance to fill the governor's chair.

Stratton Mentioned for Governor  
Secretary of State William J. Stratton is prominent among this number, and Attorney General Oscar E. Carlsom is also being mentioned. State Auditor Oscar Nelson is believed to have gubernatorial aspirations, while S. J. Stanard, former director of the department of agriculture, has many friends who would like to make him governor. Some contend that Frank T. Sheets, Illinois road builder, would make a strong candidate.

In the meantime, Capitol attaches will give ear to almost any rumor, no matter what it may be. The present outlook, however, all agree, may be subject to change by events to precede the primaries.

## COTTAGES BURN AT FOX LAKE

The local fire department was called to Stanton Point, Fox Lake, Tuesday to aid in extinguishing a house fire which had started as the result of the explosion of a stove. In a short time the flames had grown to such a magnitude that they were beyond control. The burning building was located in the midst of several other cottages, and in spite of the efforts of four fire departments, Fox Lake, Argos, Round Lake, and Antioch, an adjacent cottage caught fire. The two burned beyond repair. It is reported the loss is covered by insurance.

## Friends' Night at Rebekah Lodge

The members of Lakeside Rebekah lodge No. 82 are observing Friends' Night at their lodge meeting Friday night, August 2, at which time the stations will be filled by the members of the Rebekah lodges of the district. All of these who belong to the local lodge are urged to be present.

## Sioux Adopt Josephine Altman

Miss Josephine Altman of Evanston, Ill., was adopted by the Sioux tribe of Indians to the Black Hills. She was given the name of Singing Bird because she sings Indian songs so well. Miss Altman acquires her interest in Indian things honestly, for she is a descendant of Capt. John Smith, whose life was saved by Pocahontas.

## ILLINOIS GAS TAX IN EFFECT TODAY

Money Will be Distributed to Counties  
Next Year

The high cost of motoring took another hop skyward this morning as the Illinois new tax of three cents for each gallon of gasoline used as motor fuel went into effect.

At the same time the statute by which inspection of gasoline and oil is taken over by the state also will become effective.

The state of Illinois is all ready to begin its collection of the tax money from distributors who will collect from the filling stations, who in turn will collect from the ultimate consumer. None of this money will be distributed in refunds to counties until some time next year.

Under the new law, counties of the state are to receive 1 of each 3 coppers for highway purposes. They will, however, get nothing this year, as Director Klamey points out that the counties' shares depend on the number of motor vehicles licensed from each county, which totals will not be compiled and available until the secretary of state's books are closed for 1929. The last general assembly appropriated \$16,555.00 as the counties' share for a two year period. There is little chance, either, Klamey says, of the counties getting a split this year of the \$6,500,000 collected under the new 2 cent tax law of 1927, which money is tied up by litigation in state and federal courts.

On the same day that the gasoline tax law becomes effective, the new gasoline and oil inspection bill also will be put in force. Walter Miller, who has been chief clerk in the automobile department for a number of years, will be in charge of its enforcement, under the department of trade and commerce.

This new law transfers authority for inspecting gasoline and kerosene from Illinois cities to the state. The new law will be administered by the state department of finance, of which Garrett D. Kinney is the director. The tax will be collected by the state from the filling station owner, who in turn will collect from Mr. and Mrs. Consumer, a commensurate fee. There was some rumor at the time of enactment of the bill that at request of oil companies the bill would be passed, the companies agreeing in turn to dismiss the suits involving the 1927 two cent law. Director Kinney, however, denies any knowledge of such an agreement.

Two other bills passed by the last assembly are not in force as yet and must be approved by voters of the state at the next general election before they become effective. These measures are the 3 bills sponsored by Mrs. Lena Elrod permitting women to serve as jurors and the Lehmann bill proposing a \$14,000,000 bond issue for creation of a statewide system of conservation, forest preserves and public recreation grounds.

## Brandon Names Three to Fill State Posts

Three new state appointments were announced Saturday by Rodney H. Brandon, director of the state department of public welfare. They are: State probation officer, Mrs. George T. Palmer, Springfield, succeeding Elmer Caldwell, Havana; secretary of Illinois parole board, Harry Marsh, Bowen, Hancock county, succeeding Elbert Clark, Winnetka; and assistant state surgeon, Dr. John W. Krehn, Joliet, who fills a vacancy.

Director Brandon, former executive secretary of the Mooseheart institution was among the first appointees named by Governor Emmerson, having been chosen early this year to head the state department of public welfare.

Other executive appointments came in dribbles this week. Mrs. C. L. Silvis, Rock Island, assistant director of public welfare; Col. Frank D. Whipp, Springfield, superintendent of prisons; James A. White, Murphysboro, warden at Chester; C. J. Metzger, Shobonier, superintendent at Vandallia state farm. Several minor officers were named during the week.

## Betty Lou Williams Is Struck by Car

Confused in the heavy traffic jam on Main street Saturday morning, Betty Lou Williams, seven year old daughter of Dr. and Mrs. R. D. Williams, Antioch, was knocked down by an automobile. She was attempting to cross the street near the Lux Electric shop, when the accident happened. Luckily, she was only bruised and scratched. Betty Lou was taken to her father's office and then later to her home.

## Many Attend Church Bazaar and Dinner

In every sense of the word, the bazaar and dinner at the Methodist church last Thursday was a success. It was sponsored by the members of the Ladies' Aid society.

Scores of people not only from Antioch, but also from neighboring towns came to partake of the bountiful dinner which was served and to purchase the articles on display. There was a good variety of them; they were worth while; and most of them were handmade. The children and older folks alike were amused by the grab bag.

The decorations consisted of vases of beautiful flowers which adorned the tables and windows. About \$250 was realized. Much credit is due Mrs. Will Runyard, president of the Ladies' Aid society and the members of her various committees. She wishes to thank all those who helped make this bazaar and dinner a success.

The body of J. Britton, Pikeville, was brought to the Straug undertaking parlors Wednesday night from a Kenosha hospital.

Arthur Fitzgerald, Jr., Lake Catharine, recently won lot No. 25 in Warren's subdivision, Lake Catharine.

## ANTIOCH BOY NEAR DEATH FROM LOCKJAW

Wound in Hand From  
Gunshot Causes  
Infection

Clifford Willett, nine year old son of Mrs. Gladys McCammon, is reported today to be in a very serious condition at the Lake county hospital, Waukegan, where he is suffering from lockjaw.

The wound causing infection in the lad's hand was inflicted Friday while he and some boy friends were firing blank cartridges from a gun. Infection developed from the wound and the boy was rushed to the hospital. Attending physicians have little hope of his recovery.

Immediate treatment with a serum for the prevention of lockjaw, probably has saved the life of Robert Mortenson, son of Mr. and Mrs. Chris Mortenson, who was wounded Monday in much the same manner as the Willett boy.

The toy guns, which have proved to be so dangerous, were ordered by the boys several days ago from a mail order house.

## Mrs. A. C. Kettelhut Dies in Burlington Wednesday Night

Sudden death due to heart failure claimed the life of Mrs. A. C. Kettelhut, mother of O. W. Kettelhut, at her home in Burlington, Wis., Wednesday night. Mrs. Kettelhut was seized with the attack late yesterday while sitting on the porch at her home and death followed in a few minutes. Deceased was 74 years of age, and had been a resident of Burlington practically all of her life.

She is survived by her husband and two children, Ollie W. Kettelhut, Antioch, and Mrs. Curtis Barnes, Waterford, Wisconsin.

Funeral services will be held in Burlington Friday at 2:30 p. m.

## NEWS GETS THE BUMP, AS USUAL

Failure to set the brakes on a parked car last night was the cause of a freak accident in which no one was injured and no damage done except to the car and the Antioch News building. The car, a Cadillac, parked near the Chevrolet sales room, took a sudden nip to back across the street just when traffic was thickest, and the driverless auto was given right-of-way by passing motorists. Safely across the street, the Cadillac seemingly picked out a vacant spot in the crowded parking lot next to the fire station, and rolled on down the hill until it struck a corner of the News building. Splintered boards on the building, a smashed trunk on the Cadillac and great excitement on the part of five women who thought their car was stolen, was all the damage done. They'll set the brake next time, maybe.

## CHARLES PITMAN DIES AT CHETEK

Death, following a paralytic stroke, claimed the life of Charles H. Pitman at his home in Chetek, Wisconsin, June 20. It was learned by friends here this week.

The deceased and his family were formerly residents of Antioch, having made their home on South Main street for many years. He also lived in Waukegan, Illinois, Waukesha, Wis., and in Nebraska for short periods. He was born at Eagle Point, Wis., October 28, 1862.

Surviving him are his wife and two children, Grace L. Hurst of Eau Claire and Carol L. of Wausau; also three brothers, Frank and Fred of Chetek and William of Amarillo, Texas.

## CIVIL WAR VET ANSWERS CALL

Albert T. Look, aged civil war veteran, died Monday at the home of his daughter, Mrs. Ralph D. Hall, 1211 Ash street, Waukegan.

The deceased was born in Erie, Pa., 37 years ago, coming to Waukegan when seven years of age. With the exception of a short time spent in Iowa he lived his entire life in Waukegan.

Look served four years in the civil war as a member of Company 1, 51st Illinois Volunteer Infantry and the 17th Illinois cavalry.

## LOOK AT YOUR \$20 BILLS

Bankers and merchants in Lake county were warned Saturday to look out for counterfeit twenty dollar bills which, it is believed, are making their way here from southern Wisconsin where they have been cashed in large numbers.

The bogus bills are easily discovered as fakes because of their crude form.

It is thought probable that the man passing out the notes will not bring them to banks, but will more likely try to pass them off on merchants. Last Saturday and Sunday a quantity of the fake currency was discovered at Kilbourn, Wisconsin.

The bad notes are of the series of 1914.

## WAUKEGAN ROAD IS NOT INCLUDED IN GAS TAX LAW

No Provision Made for  
Widening Route 42  
Through County

One of the three most important radial highways leading out from Chicago is not included in the proposed widening progress under the provisions of the new gasoline tax law it was revealed Monday.

The highway, which cannot be included in the widening operations which are provided for in the \$50,000,000 gas tax appropriation contained in the law, is Waukegan Road, known as state route 42, a direct route between Chicago and Milwaukee and one of the main arteries for interstate traffic.

Motor Club Launches Movement

An effort to induce Gov. Emmerson's determination, committee to make a special recommendation for widening this road from the Cook county line to the Wisconsin state line with funds other than gasoline tax money was launched Monday by the Chicago Motor club, and arrangements were being made to bring the subject before a mass-meeting of citizens at Waukegan, some day this week.

A technicality of the law, it appears, bars this highway from the benefit of improvements with the gasoline tax funds.

According to Charles M. Hayes, president of the motor club, the exclusion of this highway from gasoline tax benefits will be a serious blow at the whole plan of radical highway widening, which was the basis for the passage of the new tax law.

## SAMS IS NAMED GENERAL MANAGER OF BLATCHFORD CO.

J. E. Sams was named general manager of the Blatchford Calf-Meat Company at Waukegan at the annual meeting of stockholders held last Wednesday. For the last five years Mr. Sams has been north shore division manager of the Hydrex corporation, but he has resigned this position to take up his new duties with the Blatchford company.

## Railway President

Mrs. Thomas C. Hickett, of Raleigh, N. C., who has just been made president of the North Carolina railway system, a state-owned organization. She is prominent in welfare work and is the widow of a former governor of North Carolina.

## ANTIOCH WOMAN VICTIM IN CAKE POISONING CASE

Miss Edith Colegrove,  
Age 68 Years, Suffers  
With 28 Others

WAS VISITING AT PALATINE

Twenty-nine persons who ate coffee cake sold at a North Side neighborhood bakery were suffering Monday at Palatine, Illinois, from food poisoning. Six of the victims were in a serious condition and it was feared that one might die. Among the number was Miss Edith Colegrove, 68 year old Antioch woman, who was visiting Chicago relatives and with whom she went to Palatine Monday.

Chicago health department officials Monday were seeking the source and nature of the poisoning.

Traced to Bakery

The cake it is believed was made in Berg's bakery at 2617 Lincoln avenue, Chicago. This bakery was ordered closed by health officials.

Of the 27 persons poisoned, six are believed to be serious, while one is dying.

The victim believed dying is Mrs. Frances Boelter, 23, of 1122 Marianna street. Her poison attack was so acute that it was impossible to remove her to a hospital. Her 6-year-old daughter, Ethel, and Henry Berner, 26, a boarder, were also stricken.

In Palatine, a cake brought from Chicago, the following were affected: Paul Hildebrandt, 57; Mrs. Louise Hildebrandt, 53; his wife and a son, Lawrence Hildebrandt, 15. Also the following guests: Mrs. Josephine Nagle, 25, of 2735 Lincoln ave.; Mrs. Marie Beth, 25, 2737 Racine ave., and Miss Edith Colegrove, 68, of Antioch, Illinois.

The seventeen others who were poisoned were divided into three other large groups.

Four Rushed to Hospital

Diagnosing their illness as food poisoning, the Hildebrandt family doctor rushed them and their guests to St. Joseph's hospital by ambulance. The cake had been purchased by Mrs. Nagle before going to Palatine.

All the others were being treated at their homes.

Baker in Custody

On orders of Dr. William D. McNally, chief toxicologist of the Chicago health department, Sergt. Stanley Kuta took Emil Berg, owner of the bakeryshop, to the Sheffield station for questioning.

He was unable to explain what might have caused the poisoning. Nearly frantic over the occurrence, Berg, who has operated a bakery at the same stand for nearly twenty years, offered the authorities every aid in the investigation. Samples of the cakes and the materials used in making them are being analyzed.

## INDOOR CARNIVAL IS BIG SUCCESS

A large crowd attended the indoor carnival which the American Legion Auxiliary No. 748 sponsored. It was held last Friday at the Guild hall.

The stunts consisted of tango, guessing beans, of which Miss Loreta Stearns, Streator, Illinois, was the winner and chances on a five-dollar gold piece. Otto Klass won the prize for the latter. Miss Lillian Overton was the recipient of the deer prize, a beautifully decorated cake. The winners at cards were: Mmes. W. H. Osmond, Kennedy, Sena Larssen, and Catherine Reluke and Mr. Chris Larsen.

Refreshments were served and Elweber's orchestra of three pieces furnished the music for dancing.

FORTUNES FROM "HOT DOGS"  
The making and selling of "hot dogs" is fast becoming one of America's big industries. This year, it is estimated, 400 million pounds of these toothsome sausages will be fed to the American public in sandwiches. One stand at Coney Island last year averaged receipts of \$15,000 every week-end through the season. Then the proprietor knew only as "Hot Dog Joe" took his family to his native Italy where they lived in affluence through the winter.

Mr. and Mrs. L. O. Bright entertained relatives from out of town over Sunday.

## ROAD EQUALITY FOR ALL TAXPAYERS

A present road necessity is to build paved secondary roads into rural sections and do for the remote farmer and taxpayer what main highways have done for urban residents.

Developments in oil and asphalt types of pavements that give dependable, long-wearing surfaces at a low original and maintenance cost, are making the second-original and maintenance possible and practical. Such roads are road program possible and practical. Such roads must replace worn-out gravel and macadam which are a source of constant expense and discomfort.

## THE MENACE OF TAXATION

No person can escape being affected by the cost of government. It is reflected in employment conditions, the purchasing power of wages, industrial activity, and perhaps most important, the cost of the necessities and luxuries of life.

When the individual is over-taxed the whole community suffers. And when a business is over-taxed, the cost must be passed on to the ultimate consumer, who pays all overhead.

There are localities in the United States where vast acreage of land has been returned to the state or county, seized for non-payment of taxes. Industries are driven away. The unemployment problem appears. The inevitable result is stagnation.

At the present time the small town is offered an unrivalled opportunity to progress and prosper, because of the trend of manufacturers away from the great centers of population. And the industrial cities of the future will be those which, along with the natural rural advantages, have a reasonable tax rate and economical government.

## A "FIRE CONSCIOUSNESS" NEEDED

All the fire prevention work in the world on the part of private organizations and public authorities can not attain its object until the public learns the lessons of safety and develops a "fire consciousness."

Fire menaces every home, every business, every

life. It spreads an unending red path of destruction and waste across the nation.

The gospel of fire prevention must be preached continually to the people. It is well known that old wiring, inferior building construction, carelessly handled interior building construction, carelessly handled matches and cigarettes, oil soaked rags and such obnoxious risks are responsible for a vast part of our yearly fire loss. Yet conflagrations resulting from these causes persist and, in some localities, increase.

The last two years have seen a reduction in fire waste. It is too soon to tell whether this is the result of a better public understanding of the problem or not. At any rate, we still have the unenviable record of destroying more property and lives by flame than any other civilized nation. The solution is in the hands of the people.

## AIR TRANSPORTATION GROWING

The airplane is the first mode of transportation to recognize no physical or geographical barrier to its ultimate use.

The foundation of aviation has been laid through years of hazardous experimenting. Some \$500,000,000 has gone into its various branches during the last two years.

It is probably necessary to look forward only a few years to see airplane post offices, with the mail being picked up, sorted and discharged in much the same fashion as is now done by railroads; transcontinental services in aircraft provided with comfortable sleeping accommodations; radio-telephone communication for passengers as well as crew, and a service so comprehensive that practically every important industrial center in the United States will be identified with this newest agency of freight and passenger transportation.

On the Pacific Coast, the Pacific Air Transport carries mail and passengers north and south from Seattle to Los Angeles, a distance of 1,100 miles, the second longest air mail line in the country. During May this company flew every mile on time and now schedules recently inaugurated shorten the trip north by one hour and 45 minutes and the trip south by one hour and 45 minutes. Southbound planes arrive in Los Angeles in time to make night train connections for Phoenix, El Paso, San Antonio, Dallas, and Southwest points, effecting a saving of from 12 to 24 hours. Fares have also been reduced on an average of 35 per cent.

Travel by air is no longer considered a gamble with death. As we become better educated to its advantages, schedules will be improved and rates will continue to go down.

The Truth  
About Coffee

Is coffee made for you? According to a most elaborate investigation by Professor Samuel C. Prescott, who spent \$30,000 investigating the chemistry of the coffee bean, about 2 per cent of people do not derive from it the pleasant effects it generally produces and probably 5 per cent should measure their indulgence in it with care. It was only after months of experiments and the brewing of countless cups of coffee which he got everybody he could induce to drink, that Professor Prescott arrived at a conclusion.

His Findings Confirmed

That was nine years ago, but nothing has been adduced on this subject since to change his findings.

He also obtained indications that perhaps it is not after all the much blamed caffeine which is occasionally disturbing to a few people, but that the coffee bean contains other substances some of which in solution may be injurious.

That was as far as Professor Prescott and his assistants got, but more recent investigations by other eminent scientists have proved that he was on the right track. They have discovered that coffee contains certain aromatic oils, and that oxygen is the enemy which attacks them and finally affects the coffee to such an extent that it becomes unfit to drink.

Fortunately a way has been found in which to keep fresh roasted coffee fresh, flavorful and palatable. That is by packing it by vacuum process in tightly sealed containers which render it absolutely impervious to oxygen. After these containers have been opened, the remaining coffee should be kept in tightly capped Mason jars.

Iodine for  
Everyone

Gout, that dread and disfiguring disease, is diminishing in this country because it was generally due to a lack of iodine in the diet, and now iodine is available to everyone. It is told that in former years every white baby born in Pemberton Valley in British Columbia had a goiter, yet in a village of Indians in this valley there was never a case of it. A scientist who sought long for the cause finally said:

"While considering the lack of goiter among these Indians I would like to draw attention to the fact that they eat a great deal of salmon—and annually cure thousands for winter use. It is quite probable that they get enough iodine from the salmon to give their thyroids the necessary quantity of this element."

The millions of cans of salmon and other fish now sold in this country are doing much to save it from this scourge, but how did our Indian aborigines who lived inland escape it?

Canned in Conch Shells

A thousand years ago the Sebechebians canned fish in conch shells. Beanchamp Plantagenet, early navigator, writing in 1648, tells of the ten centuries old custom of this ancient American tribe to trek each year in early June to the beaches of Cape May and Cold Spring Harbor. There the braves enjoyed a summer of hunting and fishing while the squaws gathered shell-fish, smoked them at great circular fires and packed them in the conch shells. And not a papoose, probably, ever had goiter, though, equally probably, they never knew why.

Sally Ann's  
Adventures

at Her Grandmother's

"Grandpa, cried Sally Ann, running all out of breath up to her grandfather, who sat reading on a bench in the back yard. 'O grandpa, there's a poor little bird down there by the garden gate and I guess she's got a lot of little babies who are lost, because she's crying so. She's got one wing broken too; she tried to fly so hard to her little peep chickens. She always says 'chirp, chirp.' When I first came to your house, grandma told me that that chick had a nest somewhere."

"Oh, I see," said grandpa, laying aside his book with a very sober face, but with a funny twinkle in his eye, so grandma told Sally about her. Did she say that the chick was an old mamma hen?"

"No that wasn't the word," said Sally; "she's the hen that flies in the trees, grandpa, and she's orange and brown."

"Yes, I know now," said grandpa, smiling; "her name is Mrs. Robin, but who could have been naughty enough to break her wing? Let's go and see her."

The two walked quietly over to the garden gate. Then they went more slowly and cautiously until Sally pointed out the spot where she had seen timid Mrs. Robin. She was not there, but as they walked on into the grass very softly and speaking in whispers, she suddenly moved in the grass almost beneath their feet. With a whirl, she darted into the air, but before going very far, she fell to the ground with one wing outstretched and fluttered along, crying, as it in great pain.

"O, grandpa," Sally exclaimed, almost in tears, "let's not scare her anymore. See how it hurts the poor mamma!"

"Very well," said grandpa, "let us go this other way and look carefully under every leaf and beside all the stones. Maybe we can find some of her little ones. If some cruel man shot the bird, or if some naughty boys threw stones at her, they probably destroyed the babies in the nest too."

As grandpa and Sally started to walk away, the mother robin, instead of going from them, fluttered nearer to them, tried to fly a second time, and again fell with her broken wing. She seemed to say, "Catch me, please, and take me to my babies; my wing hurts and I can't fly."

Just then, grandpa whispered, "Quick, my dear, come here and you will see two of her little ones." It was two innocent little robins; "but I wonder where the rest of her family is," said grandpa, as he closely searched for them in the grass.

Frozen Desserts  
Are Cooling

Maple Parfait  
5 egg yolks; 1 cup maple syrup; beat until thick. When cool, add 1 teaspoon vanilla and 5 cups whipped cream and freeze in a mold.

Cornell Marshmallow Cream  
1 quart cream, whipped  
2 pounds marshmallows, cut into 23 cup sugar  
2 teaspoons vanilla  
Pack and freeze

Pineapple Sherbet  
1/2 box gelatin dissolved in warm water  
Juice of 3 lemons  
1 1/2 pints sugar  
1 pint can shredded pineapple  
1 pint water  
1 quart cream  
Freeze

Maple Mousse  
1 pint maple syrup  
4 eggs (well beaten)  
1 quart cream  
Let syrup come to a boil and stir into eggs and let cool. Whip cream stiff; when syrup mixture is cool, add to whipped cream, pack in freezer, and let stand five hours.

Peach Ice  
1 1/2 cups sugar  
1 quart canned peaches including liquid  
Juice and pulp of 1 orange  
Juice 2 lemons  
Water to make 2 quarts  
Peach should be mashed, sugar well dissolved. Freeze. When nearly done, add beaten whites of one egg. Makes 2 quarts.

Philadelphia Ice Cream  
1 quart sweet cream  
1 large cup sugar  
2 teaspoons vanilla  
Simple and good.

Covington Cream  
2 cups scalded milk  
1 cup sugar  
1 tablespoon flour  
1 egg  
1 quart rich milk  
1 tablespoon banana flavor  
A pinch of salt

Grandpa and Sally eagerly watched them open and close their little yellow mouths for about fifteen minutes. All this time, the anxious mother, kept calling and fluttering about only a short distance away.

"Next, we will have to look for the nest," said Sally's grandfather. His first glance into a nearby tree found it. He told Sally to stay there and watch the two little birds and their mamma while he got a ladder to put up into the tree. Then, he took the two robins and put them into the nest, and what do you know about it, there were two other little brown fellows in there. Now, the mamma robin was so happy to think that all of her family was together again and that she could be with them.

For days after that, grandpa climbed up the ladder to feed berries and seeds to these poor unfortunate robins, but pretty soon, when the mamma got well, he didn't have to, because she fed them herself then. That little robin, ven though she is well and happy now, has not forgotten how kind Sally and her grandfather were to her and her babies, and she comes to see them very often.

## WILMOT MISSION FESTIVAL TO BE SUNDAY, AUG. 4

Six Are Initiated Into the Wilmot Chapter of Eastern Star

The annual Mission Festival will be held at the Lutheran church on Sunday, August 4. German services at ten a. m. will be conducted by Rev. C. Lesow of Woodland, Wisconsin, and English services at 2:30 p. m. will be in charge of Rev. H. J. Diehl, from Lake Geneva. The evening service will be in English, starting at eight o'clock, and Rev. Koehler of Milwaukee will preside.

The Concordia quartette from Itasca will sing at the morning and afternoon services.

The ladies of the congregation will serve a dinner at noon at the Lutheran hall for those attending the festival, and all others are cordially invited.

A class of six was initiated into the Wilmot chapter O. E. S., No. 204 Wednesday night. They were: Marion Becker, Gladys Burton, Ruth Barber, Grace Sutcliffe, Alice McDougall, and Jane Dawell. During the month of August, there will be no meetings of the lodge.

Mrs. Emma Winn is visiting relatives at Camp Douglas. Rev. Oscar Holt, from Calcedonia, Minnesota, a former pastor of the M. E. church at Wilmot, was in charge of the Sunday evening services.

Mrs. Louis Hegeman was a guest of Mr. and Mrs. R. C. Burton at Richmond for the day Sunday. Mrs. James Carey, Anna Marie Carey of Wilmot, Mr. and Mrs. John Ludwig and Mary Daly of Silver Lake, and Marguerite Cleary of Elkhorn motored to Whitewater Wednesday to arrange for Mary Daly's enrollment at the State Teachers' college for the coming year.

Mrs. Hagarah McGuire and daughters, Honorah and Catherine, and sons, David and William, and Leonard McCormick were up from Chicago over the week-end. Mrs. McGuire and Honorah and William remained for the week.

Fern McDougall was a guest of Agnes Theis at Channel Lake from Wednesday until Sunday. Agnes returned to Wilmot with Fern.

Mr. and Mrs. Charles Miller and daughter from Chicago and Mrs. Willis Shee were guests Sunday of Mr. and Mrs. R. C. Shottliff.

Mr. and Mrs. Louis Anderson and daughter of Crystal Lake spent Sunday with Mr. and Mrs. Frank Kruckman.

Mrs. Harry McDougall was in Chicago Friday. Mr. and Mrs. Henry Memler and daughters, Ethel and Henrietta from Brimfield, were guests for dinner Thursday of Mr. and Mrs. Frank Kruckman. During the day, they drove to Kenosha. The Memler family were returning home from a motor trip through Canada and the eastern states.

The Misses Sylvia and Irva Dowell are home from summer school at Whitewater. Miss Sylvia is to teach at Cambridge, Wisconsin, next year.

Mr. and Mrs. Frank Schanabel and family from LaGrange and Mrs. E. Hernin of Saginaw, Michigan, were guests Sunday of Mr. and Mrs. Herman Stedehag.

Mr. and Mrs. Leo Rauen and daughter of Chicago spent the first of the week with Mr. and Mrs. Fred Madden. Sunday Mr. and Mrs. Schunemann and Mrs. Toynton from Geneva City visited with the Madden family.

Mrs. Dwin Dowell and daughter of Chicago spent the last week with Mr. and Mrs. George Dowell. Callers at the Dowell home during the week were: Meses. Byron Orris and Wagner from Spring Grove.

Dorothy Knuts spent last week at Waukesha with Mr. and Mrs. Louis Holtorf.

Mrs. Earl Taylor of Geneva City spent the week-end with Mrs. Ruby Burton. Mrs. Burton is visiting with friends and relatives at Geneva City.

Mrs. C. B. Sergeant of Chicago was a guest of her sister, Mrs. James Buckley, last week.

Mr. and Mrs. F. Dibble and Mr. and Mrs. Harry Dibble and daughter, Sylvia, of Racine, were guests Sunday of Mrs. H. Boulden and daughter, Mary.

Miss LaVerna Toynton of Oak Park and Miss Esther Toynton of

Geneva City were entertained by Mrs. Lynne Sherman Tuesday.

Mr. and Mrs. Ray Perry are motoring for two weeks through the Black Hills.

Mr. and Mrs. Will Cole returned on Friday, after spending a couple of weeks with Frank Hatch, while his daughter, Laura Hatch, was on a motor trip through Kentucky and Illinois with Mary Cole of Crystal Lake.

Mr. and Mrs. W. Kline and family and Mr. and Mrs. Summers from Chicago were Sunday guests of Mr. and Mrs. Ferd Beck.

The bake sale held by the ladies of the M. E. Aid society was well patronized last week and they are holding another bake sale next Saturday afternoon from one to four o'clock at McDougall's store. They will offer cakes, pies, biscuits, and baked beans again.

The Kenosha Moose team defeated the Wilmot Pirates at the local park Sunday afternoon. The Pirates did well leading the Kenosha team 2-1 up to the seventh inning. The Pirates blew up rather badly in that inning and allowed the Moose to get nine runs in the last two innings of the game. The final score was 10-3 for the Moose.

The game was a very good pitching battle between Gohber of the Moose and Shubert Frank for the Pirates. Wilmot was able to get only six hits off of Gohber's hurling. Four were collected by Yunkovitch and Briz. McDougall and Elbert collected two bingles.

Next Sunday the Pirates travel to Eagle Lake to play the second game of the series with that club.

## LAKE VILLA PARK IS UNDERGOING MANY CHANGES

Ladies' Aid Bazaar Will Be Held On Friday, August 2

The park is being trimmed up a bit. The band stand has been torn down and other improvements are being made. Plans are under way to improve the bathing bench also, if possible.

The Ladies' Aid bazaar will be held on Friday, August 2. By mistake the date last week, was given as August 22. We want this to be a big success for the ladies; so plan to be there either in the afternoon or evening.

William Schwenk, Hammond, Ind., spent Sunday with friends here.

Mrs. Charles Madsen spent last Tuesday in Kenosha. Bobbie's cousin returned with her for a few days.

Mrs. Fred Hamlin entertained relatives from Chicago last week.

James Atwell is slowly improving, as is also Mrs. James Barnstable.

Mrs. Virginia Pittman, now of Lakeland Forest, called on Lake Villa friends last Friday.

Mrs. Harry Stratten entertained a friend from Chicago last week.

Miss Evelyn Swanson has been enjoying a two week's vacation at her home.

Mr. and Mrs. Ilea Hadad announce the birth of a son on Thursday last week.

Quite a lot of excitement occurred Monday about noon at the Rentner and Heley garage, when a large fruit truck caught on fire. The Antioch fire department which was called, soon put out the blaze.

Mr. and Mrs. Zee Zenor are entertaining guests from Ottawa, Ill.

Several from here attended the card party at Antioch last week which was given for the benefit of the new Catholic church.

Hunters are enthusiastic in their reception of the lower prices on Winchester shells. The famous repeater, 12 gauge, load now under one dollar. Ranger shell, 75c per box in case lots. 5520 6th avenue, Kenosha.

## FOX LAKE MARSHAL IS SEARCHING FOR OWNER OF BOAT

Mr. Russell of Wildwood was found dead near his home recently. The cause of his death is not known.

Marshal Riggs, Fox Lake, is trying to locate the owner of the motor boat S. 194 with initial J. W. painted on the side, which ran into and capsized a row boat with two girl occupants in Nippersink lake a week ago Tuesday afternoon at 5:30 p. m., near Point Comfort bathing beach.

The row boat was completely destroyed and the girls, who were dumped into the lake, were rescued by the occupants of the motor boat with the assistance of a young man who dove into the lake from a nearby pier. In the excitement, the occupants of the motor boat drove away without leaving either address or names.

The girls are living on Abbotts Island; one of them was severely injured.

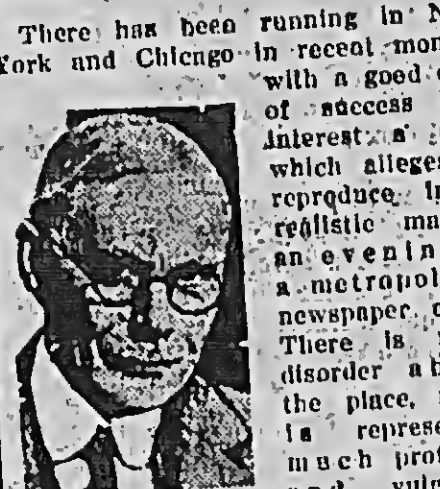

The Fox Lake Fire department recently had a hurried call to Long Lake, where a hay stack was found burning.

Mr. and Mrs. Frank Valenta drove to Racine Tuesday.

The Ruchmore Manor Improvement association held a semi-annual meeting Sunday. There are plans afoot to make the subdivision a model little city.

## THE FIXED IDEA

By THOMAS ARKLE CLARK  
Dean of Men, University of Illinois

There has been running in New York and Chicago in recent months with a good deal of success and interest in a play which alleges to reproduce, in a realistic manner an evening in a metropolitan newspaper office.

There is much disorder about the place, as it is represented, much profanity and vulgarity, and chewing of tobacco and references to booze feasts among the hooligans of the office, for in some way these things, picture the fixed idea of what a modern newspaper office is like.

Now the facts, if looked into, would seem to make the fixed idea of what a newspaper office is neither more disorderly nor more profane than other business offices, but it would be hard to make the general public believe so.

I noticed a statement in one of our local papers the other evening to the effect that one of our fresh young citizens had been viciously slapped in the face, as he deserved to be, for making advances to a young woman with whom he had no acquaintance, and who was netting in one of our local theaters. The fixed idea is pretty prevalent that all actresses, being of easy virtue, court attention from strangers and welcome invitations from anybody who is willing to spend money on them. A good many young men have been slapped in the face for erroneously assuming such a point of view. It is a long exploded idea in the minds of those who know anything about the matter that chorus girls and actresses are less moral, less honest, and less regular in their lives and habits than other professional women.

The frock-coated, long-whiskered, absent-minded, near-sighted college professor has for decades been represented in humorous magazines and on the stage. So long and to such an extent has he been thus pictured that it has become a fixed idea in the minds of a majority of people who have never been to college that that is the sort of creature he is—impractical, imprudent, ill-dressed, a nuisance of one idea, and that one a very narrow and unbusiness-like idea.

Now the college professor is in fact not so very different from other normal people. I am not infrequently asked, when on a railroad train, I get into conversation with traveling salesmen, what line I am carrying or what business I represent. I have even been taken for a lawyer or a bank president at times and have not resented the suggestion in the least, and I am sure many of my colleagues would pass as representative business men, though there is a fixed idea against such a possibility.

There is the fixed idea in the minds of many people that all Italians work at hard labor, that all Greeks run restaurants, and Scotchmen are all stings, and that plumbers continually rob the public and eventually grow rich. The fixed idea is the surest indication of inexperience and ignorance. Our ideas are set upon the subjects about which we know the least.

Pictures Pull  
Almost without exception, we strongly recommend the use of pictures as an attention value medium on all pieces of job printing. To help you get the right pictures for your printing is a part of our printing service. We always have plenty of cuts on hand from which you may pick the ones you need.

Well, we ought to have bigger and better reads from now on.

After all that we have read in the Waukegan Daily Sun, the last few days, we are mighty glad we didn't run for county office last time.

Isn't it time you got busy on that house painting job? Fine weather to paint and we have a fine line of paints with which to paint.

We have spent a great deal of time lately trying to verify the rumor that one of the waitresses in a local hotel full off the front porch and trampled her own head and hurt herself elsewhere.

How about a nice lawn seat? Got lots of good lumber here at the yard, right now; just the thing for making lawn seats and other things that you have been wanting for a long time.

It's sad, but true. The only place there seems to be any room to park a car on Sunday is in front of a church.

The secret of Napoleon's success was his ability to take orders. Eventually he got to the point of giving them. We in this business are still at the stage of where we like to take orders—especially "your orders" for good lumber and building materials.

Why not give that wicker set a coat of DUCO? Your friends will think you have some new furniture.

## MRS. HAMLIN WRITES INTERESTING LETTER TELLING ABOUT TRIP

Portland, Oregon  
1296 Atlantic Street

Editor Antioch News:

Since leaving home June 29, we have been seeing such wonderful sights that we thought that others might be interested in hearing a little of our trip. We drove through Wisconsin, N. Dakota, Minnesota, and Montana on our first lap, and Wisconsin has scenery that cannot be surpassed for beauty. These other states are fine, but in a different way, as they are so flat and for miles not a tree in sight. That looks lonely to one accustomed to trees. Ollmount in Montana, near Shelby, is a wonderful sight; innumerable oil wells in operation, but one would not choose it as a place to live unless one had interests there.

From Shelby where we visited friends we went on to Glacier National park where we got out first glimpse of snow-covered mountains and forests of spruce, fir and pine. We spent a day there, but much more time could be spent profitably, as there are many trails and roads among mountains, lakes, streams and waterfalls. The animals there are not found near the highways.

We spent two days in Canada, one in Alberta and one in British Columbia, one night we spent in a tourist camp in British Columbia, which had been the former barracks of the Royal Canadian Mounted Police. In getting gasoline, we found that the Canadian gallons were larger than the United States gallons, but a much larger price was paid. Provisions were also a bit higher in price, but the people were very cordial. In driving through the Canadian Rockies one rainy day we overtook a man who had been wounded in some way, but he would not say. He only asked us to send the inspector to him from the next town which

**Bride-elect Feted** — Miss Grace King, 5500 Byron street, Chicago, gave a miscellaneous shower and luncheon party Wednesday in pre-nuptial courtesy to Miss Dorothy King, a former Antioch resident, whose marriage to Peter Zoy will take place, Wednesday, August 28. Those from Antioch who attended are: Mmes. Henry Man, Fred Pansch, Raymond Wildhagen and son Dwight, and George Illdebrandt and daughter, Henrietta.

**Mr. and Mrs. S. Boyer Nelson** and family drove to Whitewater, Wisconsin, Sunday.

**Miss Rose Walsh**, Crawford, Ill., and Mrs. Gertrude Musch Ott, Bridgeport, Michigan, are spending their vacations with Mr. and Mrs. William Musch.

**Get your "New Perfection" oil** stove at Chase Webb's.

**The C. E. Hennings family** had a picnic at Twin Lakes Sunday.

**Mr. and Mrs. T. Schumacker** and daughter, Miss Bernice, San Antonio, Texas, are visiting at the Otto S. Klass home.

**Mr. and Mrs. James Coyne**, Berwyn, Illinois, visited with the Frank Hunt home recently.

**Miss Lucille Hook**, Gurnee, Illinois, is a guest at the home of Mr. and Mrs. Lee Strang.

**Mr. and Mrs. L. G. Strang** spent last week at Wausau, Wisconsin, where they attended a funeral directors' convention.

**Mr. and Mrs. C. McCarran** have returned to their home in Chicago, after spending two weeks at "Woodland" on Silver Lake. Mr. and Mrs. Campbell are the owners of "Woodland" cottage.

**All kinds of summer underwear at Webb's.**

**Mr. and Mrs. Clyde Wentworth** and family and Mrs. Edmonds are visiting relatives at Beaver Dam, Wis.

**Miss Rita Hawkins** spent Thursday with her sister, Mary, at Trevor.

**Miss Janet Lord** of Waukegan is visiting a few days at the home of Mr. and Mrs. Roy Graves.

**Mrs. John Blackman** and children motored to Janesville, Wisconsin, on Wednesday and spent the day with Miss Toulton.

**Dress Sox—3 pair for \$1.00.** Chase Webb.

**Mr. and Mrs. Roy Nelson** and little son of Greenwood were week-end guests of the Andrew Harrison's.

**Harry Willett** spent Monday in Chicago.

**Mrs. Norris Proctor** visited at Robt. Runyard's Wednesday.

**Mr. and Mrs. F. McDonald**, Genoa, was 26 miles away, so we have wandered what had happened.

**The Columbia River highway** is a beautiful drive and has many scenic spots, being the old Lewis and Clark trail to Oregon. The mountains along the river are not so high as the Canadian Rockies which were rather steep in places, and the road narrow, especially "The Crow's Nest", on the Continental Divide, although passing places were quite close together. The scenery, through Idaho, after crossing the border, was beautiful, with luxuriant growth of trees and flowers, especially ferns. Washington and Oregon have wonderful large wheat fields, and it was a beautiful sight as it was nearly ready for harvesting. We reached Portland after a four-day ride from Shelby, which also included the Glacier Park trip.

**Portland** has many places of interest and is a beautiful city located on the Columbia river, 100 miles from the sea, but many ships come here loaded with goods from Japan, Germany and other countries, also carrying out wheat, lumber and canned salmon, which is plentiful in the river. Among the interesting places we visited were the docks, the airport, the Crown flour mills, at which George Walker was superintendent, the Council Crest, a mountain where Indians formerly held councils, the Crematorium and the Battleship Oregon. We also took a trip to the top or nearly so of Mt. Hood and were up 6000 feet above sea level, above the timber line and among snow banks too deep to drive through. The loop trip, as it is called, is about 200 miles, I believe, and the Hood river valley is noted for its apple and pear orchards.

We also drove to Astoria and Seaside, a noted summer resort, over the lower Columbia drive, a beautiful drive, but not as picturesque as the upper Columbia drive. We enjoyed our stay at Cannon Beach, near Seaside, where we and our friends had a cottage for three days, and enjoyed watching the tides ebb and flow and the ocean as a mighty body of water. On our return to Portland we came home through Longview, where we visited the Long Ball Lumber company mill, the largest lumber mill in the United States, where guides take parties through every part of the mill to see the logs brought in and turned out as finished lumber.

Truly so far it has been a wonderful trip to see our own United States and one need never go to a foreign country for beautiful scenery—just come West.

Sincerely,  
The O. B. Hamlin Family.

## DIPPING INTO SCIENCE

### Pumice Stone

Pumice stone comes to us from the depths of the earth. Filled with gas when thrown out upon the surface by volcanoes, it was found under great heat, the escaping gas causing it to be very spongy in appearance. It has been of great aid to scientists in learning something of the undercrust of our planet.

(Q. 1929, Western Newspaper Union.)

## Printing Is But a Small Part of the Cost

IN getting out a circular, circular letter or other piece of printed matter. The paper, the addressing, the mailing easily total more than the printing. Yet, in a large measure, the Results Depend Upon the Printing.

Let us show you some samples to illustrate our statement

## THE MIRE of DEBT

There is a certain way to get out of the mire of debt, to rid yourself of a handicap that will, sooner or later, overcome your hardest struggles to get on in the world. You must start to save a part of your earnings. Then as you accumulate a balance, clear up your debts and continue to save.

# CHICAGO FOOTWEAR CO.

## OUR Annual AUGUST SALE

WILL BE THE GREATEST EVENT IN OUR HISTORY

### The Other Fellow's Loss Is Your Gain

The Guthman-Carpenter Co., have retired from business and we secured some of their large stock, which we will put on sale with a large line of novelties bought at reduced prices from one of the largest women's novelty shoe houses in the country. These and many more from the Chicago Footwear Company's wholesale warehouse in Chicago will be offered.

**BUY NOW FOR FALL AND WINTER**

You can lay in a supply for fall and winter because we will have quantities of Fall and Winter styles with our large line of tan, black kid and elk oxfords.

**You Will Profit by Reading the Circular for Special Offers.**

Displays of shoes will be on tables and racks, so you may walk in and see for yourself the real bargains we are offering. All shoes are guaranteed and money will be refunded to purchasers not satisfied.

## Shilly-Shallying and Regret

By THOMAS ARKLE CLARK  
Dean of Men, University of Illinois.

Mr. Star Jeffrey, in Thomas Bailey Aldrich's story of "Miss Mehetabel's Son," whenever he can get anyone to listen to him, is constantly recounting what would have happened if he had only married Mehetabel.

"Indeed, I know my life would have been very different now," he used to say. "If I had only married Mehetabel," and so on.

"Why didn't he marry her?" the visitor in the neighborhood inquired of the village hotel keeper.

"Never asked her," was the reply. "Might have married her forty times. She'd have had him quick enough. Seven years, off and on, he kept company with Mehetabel, and then she died. He shilly-shallied."

And so he never had a home, never had a son, and all through life talked about what might have been as many people since his time have done.

Gregory always thought that the town would have a boom one of those days, and if it did the only possible direction it could expand would be toward the south. There was a beautiful tract of land—forty acres or so—lying just at the edge of the village, well situated, well wooded, a perfect place to build if the town should develop. He could have bought it for a small sum and he had the money, but he hesitated to take the risk, he shilly-shallied, and someone else, seeing his opportunity, stepped in, took a chance, and cleared a hundred thousand dollars in no time.

Now Gregory is regretting his hesitation, and telling everyone what he might have been worth today and how different his life would be if only he had not shilly-shallied. The thing had been his almost for the taking.

I saw in the paper last night that Watson who died a week or two ago had left no will. He had meant, I know, to do something worth while for charitable organizations in which he had a real interest, and there were certain intimate friends who had every reason to expect benefit by his death. As it was, his property, which was quite considerable, would go to some remote and distant relatives whom he had never seen and in whom he had little interest.

He had always intended to make a will; he had known that that was the only thing for him to do, but he had shilly-shallied, putting it off from day to day until it was too late. Were he not far beyond the possibility of regret and self-criticism, I am sure that Watson would be telling everyone to what better purposes his wealth might have been put had he not neglected doing the thing which he all the time knew was for him the wise procedure.

I hear people every day regretting as did Jeffrey that he had not married Mehetabel, that they had not taken advantage of this or that opportunity, made this or that investment, or gone into one profession or another. It is useless. Things might not have turned out as they expected. If Jeffrey had married Mehetabel they might not have had a boy.

## BROWN AND STEVENS AGAIN SLATED FOR WINDUP AT PALACE

Brown Given Verdict Last Friday—Decision Unpopular

Joe Brown, Garfield Park Eagles, and Jackie Stevens, Hippodrome A. C., are matched a second time as principals in the windup event in the Antioch Palace arena Friday night. While Brown was given the verdict after four rounds of milling last Friday night, the decision was very unpopular with the many friends of Jackie who were pulling for their favorite. The fight was close all the time and might well have been declared a draw except for the amateur ruling which requires a decision at the end of four rounds in case three rounds have been even.

**Petersen Beats Stowe**  
In the semi-windup, Rudy Petersen, Evanston, avenged his defeat of the previous week at the hands of Joe Stowe, Kenosha, by being declared the winner over the Kenosha mauler in three rounds. It was Rudy's fight all the way.

**Results of Preliminaries**  
Charley Zahale, Highland Park, beat Rudy Wadlicks, Chicago, in three rounds.

Lyle Drake, Kenosha, won over Johnny Taylor, Waukegan, in three rounds.

Ernie Kratchevill, Racine, won as he pleased over Joey Pitts, Evanston, in three rounds.

Howard Craft, Grayslake, defeated Young Mullins, Highland Park, in four rounds.

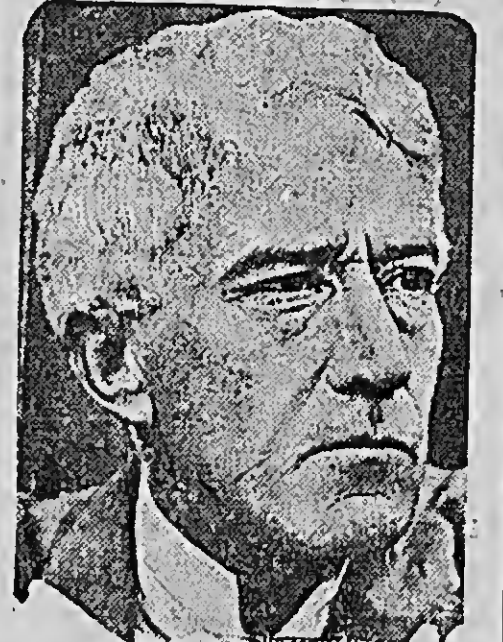

Johnny Hughes, Kenosha, beat Johnny Olson, Evanston, in three rounds.

**Good Card Friday Night**  
In support of the Brown-Stevens clash tomorrow night, Promoter Macek has arranged an extra good card of preliminaries. Oscar O'Hanlon, Waukegan, and George Sames, Antioch, rivals in the Palace ring for the seventh time will meet once more. These little scrappers are always good for at least three rounds of good entertainment.

Howard Craft, well known performer in the Palace ring, meets Bobby Wadlick, of the Hippodrome athletic club. Don Conn, Waukegan, will face Ben Berliner, 120 pound Lake Forest lad, and Carl Ogren, Kenosha, will be seen in action against Henry Rasmussen, Racine. Eddie Garlow, Kenosha, and Lyle Drake, Chalm O'Lakes, meet in one of the preliminaries, and Leo Donnelly, Davenport, Iowa, and Charley Murry, Hippodrome, are billed to furnish the semi-windup event.

About 1200 fans saw the bouts last Friday night, but the attendance this week is expected to exceed that number.

## Judge Landis Given Medal

The American Legion distinguished service medal, hitherto awarded to only two Americans, was presented to Kenesaw Mountain Landis, former federal judge, now national baseball commissioner, at a testimonial luncheon at Chicago. Gen. John J. Pershing and Admiral R. E. Coontz are the other two who have been awarded the medal.

## DIPPING INTO SCIENCE

## Honey

We say the bee obtains honey from the flowers but this is not really true. Honey is only manufactured by the bee after it has taken from the flower, a sugary substance which the flower builds up within itself through sunlight and moisture for its own use and which it can replace only by a slow and complicated process.

## Chauffeurs May Get Permits by Mail August 1

Under a new ruling promulgated by William J. Stratton, secretary of state, and effective August 1, 1929, all persons in Lake county desiring to make application for a chauffeur's license may do so by making application in writing to the secretary of state at Springfield, Illinois. Blanks for this purpose may be obtained at the office of Lew A. Hendee, county clerk of Lake county at Waukegan, or by writing the secretary of state at Springfield. In the past all applicants in Lake county have had to file in person at the Chicago office of the secretary of state.

## TRIEGER SERVED FOR 38 YEARS AS CHICAGO POLICEMAN

Norwood Park's 'Chief' Resigns; Famed for Chasing Mayor Harrison

Being a one-man police force for 38 years is something, and resigning over the protests of superiors after that length of service is something more. But that is what Bob Trieger has done at Norwood Park. Bob is the brother of Barney and Gus Trieger. Gus served on the Chicago Police force for many years.

Wednesday's edition of the Chicago Daily News carried the following story of Bob's resignation:

Carter H. Harrison may have been mayor of the town, but he couldn't catch snipes, either with gun or gummy sack, on the Norwood Park beat of vigilant Policeman Bob Trieger. So many years ago that Bob forgets the date he donned rubber boots and chased a group of hunters from a swamp on his beat to discover that his honor was in the party.

Outside of chasing a mayor and being missed thirty times by the bullets of three hoodlums who were neither good safeblowers nor marksmen, Patrolman Robert E. Trieger's 38 years on the Chicago police force have been such as to please a pastoral rimester. During that time, in which he spent 36 years on the same beat, he has earned the title of "Chief of Police of Norwood Park."

**Superiors Protest Resignation**  
Bob—he is so addressed by about 9,000 people in the northwest extremity of the city—ends his long service.

## Old Horses Wanted

at  
**Dryx Fox Farm**  
Four miles east of Bristol, Wis., on Highway No. 50

on the police force today, despite the protests of his superior officers in the Irving Park station.

He tried to resign four years ago, but the combined protests of Chief of Police Morgan Collins and his "constituents" caused him to change his mind.

"I'm really quitting this time, though," he tells the group in the "town square," who seem a little incredulous. "I'm going to try a little gyping for a while, and take a rest I've been figuring on for the last twenty-five years."

Bob was born sixty-four years ago in Saxony, and came to Chicago when he was 22. He joined the police force March 20, 1891. Two years later, when the corporate limits of Chicago enveloped the tranquil little town of Norwood Park, Bob got the beat and kept it. He lives with his wife at 5927 North Harlem avenue.

**Police Station Wherever He Is**  
Bob's home is the unofficial police station. When citizens have something on their minds that comes under the head of police work, they call Bob on the phone at any hour of the day or night.

Although Bob spends most of his time in the business section of the neighborhood, guiding the children across Northwest highway and saluting everybody by Christian names, his beat extends from Harlem to Nagle avenues east and west, and from Bryn Mawr north to Alhion avenue, a district of about 9,000 inhabitants.

Bob has a nephew, Herbert, who joined the force two years ago, and rides a silver out of Irving Park station. Bob wants Herbert to take the beat and make it a family heritage.

Rev. J. Stelmor and family were recent guests of Rev. Dixon and mother.
